# Introduction to Wishlist Bundles

Thank you for purchasing Wishlist Bundles!

Wishlist Bundles allows you to sell unlimited number of membership levels in one purchase only.

The plugin enables you to attach multiple membership levels to a specific “virtual level” so every time a “virtual level” is sold, the members gets immediate access to all levels attached to that virtual level.

This way, you will be able to create special scenarios by combining multiple levels and selling them as bundles without losing the flexibility of selling each level individually.

With Wishlist Bundles you will engage your members more easily and significantly increase your sales and revenues.

## **Using Wishlist Bundles will give you the flexibility to:**

Sell multiple courses at once

Sell multiple membership levels at once

Create bonus packages inside your membership site

Give your customers multiple options that will increase your conversion rates

## The Difference between Virtual Levels and Regular Levels

A level can be defined as virtual in the Wishlist Bundles Settings tab under "Virtual Level".

Virtual levels allow you to register members to all the levels specified under the Bundle Content without being registered to the virtual level itself.

Screenshot:

The screenshot shows a form for configuring a level. The fields are: Level Name (Beginners), Active (Yes), Bundle Content (Bonus 1), and Virtual Level (Yes). A red circle highlights the "Yes" radio button under "Virtual Level", and a red arrow points from this circle to the "Bundle Content" field.

Level Name	Active	Bundle Content	Virtual Level
Beginners	Yes	Bonus 1	<input checked="" type="radio"/> Yes <input type="radio"/> No

In the above screenshot members will be registered only to the Bonus 1 level.

Regular levels allow you to register members to all levels specified under Bundle Content and also to the Level Name itself

Screenshot:

The screenshot shows a form for configuring a level. The fields are: Level Name (Beginners), Active (Yes), Bundle Content (Bonus 1), and Virtual Level (No). A red circle highlights the "No" radio button under "Virtual Level", and a red arrow points from this circle to the "Level Name" field.

Level Name	Active	Bundle Content	Virtual Level
Beginners	Yes	Bonus 1	<input type="radio"/> Yes <input checked="" type="radio"/> No

In the above screenshot members will be registered to the Beginners + Bonus 1 levels.

# Complete Activation Process Summary in 6 Steps

Follow the steps below to have Wishlist Bundles activated and fully function on your membership site.

Detailed information about each step including screenshots will be given further down this manual:

## **[Step #1: Plugin Download](#)**

Download Wishlist Bundles plugin zip file from the Purchase Receipt you received to your email.

## **[Step #2: Plugin Installation & Activation](#)**

Install the plugin just like any other WordPress plugin from the Plugins menu > Add New.

## **[Step #3: License Activation](#)**

Activate the plugin's license using the license key you received to your email.

## **[Step #4: Creating the Bundles](#)**

In order to define the plugin's settings, go to WL Extensions > Wishlist Bundles > Settings tab

In order to define a new bundle, all you need to do is choose your levels and they will be added immediately to the bundle.

## **[Step #5: Integrating with Your Payment Gateway](#)**

After defining your bundles settings you need to integrate the membership levels to your chosen payment gateway in order for members to be able to register to get the bundles.

In order to integrate your bundles' levels to the payment gateway go to: Wishlist Member menu > Integration > Shopping Cart

Choose your shopping cart and follow Wishlist Member instructions for the integration.

## **[Step #6: Testing the Bundles](#)**

After you've integrated Wishlist Member with your chosen shopping cart now it's time to test the integration is working and that the members are registered to the bundles as defined in the Settings tab.

Make a test purchase and to test the registration process.

# Step #1: Plugin Download

Download Wishlist Bundles plugin zip file from the Purchase Receipt you received to your email as seen in the screenshot below:

 **HAPPY PLUGINS**  
THE STORE

Hello Motti,

Thank you for purchasing with Happy Plugins Store!

The items you purchased are listed below, along with all file download links. These download links expire in 72 hours, please download your files right away!

## Step #2: Plugin Installation & Activation

Wishlist Bundles can be installed easily, just like any other WordPress plugin.

**You can install it 2 ways:**

1. Upload the folder found inside the zip file to your plugins' folder in your WordPress installation
2. Go to the plugins menu, click the "Add New" and choose the zip file you have downloaded

## Step #3: License Activation

After you have installed and activated Wishlist Bundles, you will find the plugin's activation setting inside the WordPress menu under: WL Extensions > Wishlist Bundles:

### Wishlist Bundles - Activate License

Fill in the license key for Wishlist Bundles.  
(You can find the license key inside your account or in the email you got when you purchased Wishlist Bundles)

License Key  Enter your license key

Activate License

Current License Status **Not Active**

---

#### Having License Problems?

This can be caused due to the following scenarios:

1. The license key you have entered is wrong – Copy the license key from your account in Happy Plugins Store
2. You have reached your license activation capacity – Please purchase more licenses

You can always buy more licenses for this product at: [Wishlist Bundles](#)

---

This plugins is developed by HappyPlugins if you don't own a license go to [Happy Plugins](#) store and buy a license key for this product.

You can easily activate the plugin's license using the license key you received to your email.

## Finding Your License Key

You have 3 options to finding your licenses keys:

### 1. Go to My Account > Purchases and click on the key icon:

ID	Date	Amount	Details	License
#197	December 26, 2013	\$0.00	<a href="#">View Details and Downloads</a>	ClickBank Cancel Notifications for Wishlist Member 
#140	December 23, 2013	\$15.00	<a href="#">View Details and Downloads</a>	Clickbank Redirection 

Click to view license key

Next 

### 2. When you finish the purchase process:

## Purchase Confirmation

Thank you for your purchase!

Payment:	#197
Date:	December 26, 2013
Payment Status:	Complete
Subtotal	\$0.00
Total Price:	\$0.00
Payment Method:	Free Purchase
License Keys:	
ClickBank Cancel Notifications for Wishlist Member	

### 3. In the purchase receipt that was sent to your email:

Hello Motti,

Thank you for purchasing with Happy Plugins Store!

The items you purchased are listed below, along with all file download links. These download links expire in 72 hours, please download your files right away!

#### Products

Purchase #: 711

Payment Method: manual\_purchases

Total price: \$19.00

Best regards,

The team at HappyPlugins

---

If you purchased without registering an account and wish to redownload your purchases after 72 hours, please go to [HappyPlugins](#) and create an account in order to gain access to your download links.

---

[View it in your browser.](#)

# Step #4: Creating the Bundles

In order to define the plugin's settings, go to WL Extensions > Wishlist Bundles > Settings tab

In order to define a new bundle, all you need to do is choose your levels and they will be added immediately to the bundle.

Level Name	Active	Level Bundles	Virtual Level
Pro	Yes	Level1 x Level2 x	<input type="radio"/> Yes <input checked="" type="radio"/> No
Premium	Yes	Choose the Levels Bundles... <i>The Bundles is active but no level has been assigned</i>	<input type="radio"/> Yes <input checked="" type="radio"/> No
Level1	No	Choose the Levels Bundles...	<input type="radio"/> Yes <input checked="" type="radio"/> No
Level2	No	Pro x <i>One of the selected levels is a bundle on his own. This bundles has been deactivated</i>	<input type="radio"/> Yes <input checked="" type="radio"/> No
Level3	No	Choose the Levels Bundles...	<input type="radio"/> Yes <input checked="" type="radio"/> No
Level4	No	Choose the Levels Bundles...	<input type="radio"/> Yes <input checked="" type="radio"/> No

**Email Settings**

Send a detailed email to the admin when a new member is registered to a bundle.

[Save Settings](#)

Activate/  
deactivate the  
bundle

A "Virtual  
Level" is a level  
that exists for  
the sole  
purpose of  
bundling

Click here to add  
levels to the  
bundle

Check the box to get email notifications  
when a bundle has been purchased

## Notifications:

There are 2 possible notifications when determining Wishlist Bundles settings:

### 1. "The Bundles is active but no level has been assigned"

This means that the "Active" option is set to "Yes", but no levels were added in the "Level Bundles" field.

Level Name	Active	Level Bundles	Virtual Level
Pro	Yes ▾	Level1 ✕ Level2 ✕	<input type="radio"/> Yes <input checked="" type="radio"/> No
Premium	Yes ▾	Choose the Levels Bundles... <i>The Bundles is active but no level has been assigned</i>	<input type="radio"/> Yes <input checked="" type="radio"/> No

### 2. "One of the selected levels is a bundle on his own. This bundles has been deactivated"

This means that the level "Pro" is already defined as a Bundle (Level1 + Level2), so when trying to add the Pro level to a different level ("Premium"), the plugin notifies you when you try to save the settings.

Level Name	Active	Level Bundles	Virtual Level
Pro	Yes ▾	Level1 ✕ Level2 ✕	<input type="radio"/> Yes <input checked="" type="radio"/> No
Premium	No ▾	Pro ✕ <i>One of the selected levels is a bundle on his own. This bundles has been deactivated</i>	<input type="radio"/> Yes <input checked="" type="radio"/> No

## Step #5: Integrating with Your Payment Gateway

After defining your bundles settings you need to integrate the membership levels to your chosen payment gateway in order for members to be able to register to get the bundles.

In order to integrate your bundles' levels to the payment gateway go to: Wishlist Member menu > Integration > Shopping Cart

Choose your shopping cart and follow Wishlist Member instructions for the integration.

There is no different between integrating regular membership levels to integrating the membership levels created for the bundling purpose.

In order to do the integration you simply need to choose the Item/ Subscription ID of your bundle as seen in the screenshot below and Wishlist Bundles will register members to the right levels as defined in the Settings tab:

Membership Level	Item/Subscription ID	Cancel When Subscription Ends	Immediately Cancel on Subscription Cancellation
Beginners	<a href="#">1409480997</a>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Intermediate	<a href="#">1409480998</a>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Advanced	<a href="#">1409480999</a>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Bonus 1	<a href="#">1409481000</a>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Bonus 2	<a href="#">1409481001</a>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Bonus 3	<a href="#">1409481002</a>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Silver Membership	<a href="#">1409482134</a>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Gold Membership	<a href="#">1409482226</a>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Platinum Membership	<a href="#">1409482203</a>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

## Step #6: Testing the Bundles

After you've integrated Wishlist Member with your chosen shopping cart now it's time to test the integration is working and that the members are registered to the bundles as defined in the Settings tab.

Make a test purchase and to test the registration process.

### **This is how the registration process works:**

1. Customer clicks on the buying button / link and redirected to the shopping cart
2. Completes the purchasing process and redirected back to the membership site
3. Registered to the membership site using the registration form

\* If you are using [Wishlist Auto Registration](#) to automate the registration process then the user will be automatically registered and logged-in to the site

4. The member is registered to the membership levels as defined in the Wishlist Bundles Settings tab

### **Possible Scenarios**

#### **1. User is not redirected to the registration form after completing the payment in the shopping cart**

In that case the integration between Wishlist Member and the shopping cart is not correct.

Please go over the instructions on how to integrate the two of them together.

You can find instructions inside Wishlist Member under the Integration tab.

This is not a problem with Wishlist Bundles and we do not provide support for integrating with Wishlist Member settings.

We do provide paid troubleshooting services; you can find more information about [our services in this link](#).

#### **2. The member is registered to the membership level even though it is defined as a Virtual Level**

Please make sure your virtual level is indeed defined as virtual inside the Wishlist Bundles settings > Settings tab > Virtual Level is set to "Yes".

If the virtual level is set to "Yes", but there is still a problem, please go to the [Contact Information](#) section to find out more and how to contact our support.

# FAQS

## How is Wishlist Bundles different than using Wishlist's Sequential Upgrade feature?

Although there is an option to use the Sequential Upgrade feature for creating bundles, however it is not the best solution and it makes the bundles option impossible in complex scenarios, for example:

If you want to sell level 1 + level 2 + level 3 in different combinations and bundles, but you also want to sell each level individually.

Also, using the Sequential Upgrade for multiple bundles can be very confusing and is presented in a non-visual way in the Sequential Upgrade settings, which can cause confusions and lead to creating wrong bundles.

## Is it possible to create dynamic prices using check-boxes so members can choose the products/ membership levels on their own?

Creating a cart with check-boxes and dynamic prices is not possible since most payment gateways that Wishlist integrates with don't support dynamic prices, only fixed buttons that are pre-defined inside the shopping cart.

## Does Wishlist Bundles integrate with Wishlist Auto Registration?

Yes, the plugin is fully integrates with Wishlist Auto Registration.

Wishlist Auto Registration fully automates the registration process; this is the process a members goes through with/ without Wishlist Auto Registration:

1. Customer clicks on the buying button / link and redirected to the shopping cart
2. Completes the purchasing process and redirected back to the membership site
3. Registered to the membership site using the registration form

\* If you are using [Wishlist Auto Registration](#) to automate the registration process then the user will be automatically registered and logged-in to the site

4. The member is registered to the membership levels as defined in the Wishlist Bundles Settings tab

## Does Wishlist Bundles integrate with Wishlist Registration Widget?

Yes, [Wishlist Registration Widget](#) allows you to register members using a sidebar registration form and it is fully integrates with Wishlist Bundles.

### **Does the plugin have any conflicts with other plugins?**

As far as we know, the plugin does not conflict with any other plugin. Wishlist Bundles keeps a very strict code method so the chances that it's causing any problem are very low.

If you have any problems or conflicts, please try to disable the plugin and see if the problem still exists. If it does, please contact our support helpdesk.

### **What is a "virtual level"?**

A virtual level is a level that exists for the sole purpose of bundling several membership levels together.

For example: a virtual level called "Super Bundle" includes membership levels: Silver, Gold and Platinum.

### **Does the plugin integrate with every membership site platform?**

No, Wishlist Bundles is a Wishlist Member dedicated plugin.

# About HappyPlugins

[HappyPlugins](#) was established in 2010 to develop plugins and extensions for the WordPress platform.

The majority of the plugins are developed as white label according to our clients' specific requirements.

In late 2010 we opened a new branch under HappyPlugins brand for developing Wishlist Member dedicated plugins called Wishlist Member Developers.

Our team here at [Wishlist Member Developers](#) develops commercial and custom plugins for the Wishlist Member platform.

## Expertise

Our expertise includes:

- In depth knowledge and understating in the web industry
- UXI design and improvement
- Experience in traffic and media buying for large companies
- Subscription-based marketing and retention
- Conversions and flow design optimization
