Introduction to Wishlist Registration Widget

Thank you for purchasing Wishlist Registration Widget!

Wishlist Registration Widget adds a registration form to your Wishlist Member membership site to maximize the registration rates to your free membership level.

Wishlist Registration Widget is available in 3 versions: Basic, Pro, and Premium. See comparison table in [Step #4](#)

Wishlist Registration Widget's Unique Features:

Visible Location (Widget) – The registration form can be placed in any location according to your theme's widgets: sidebar, header, footer etc. More exposure leads to more registrations.

Real Time Validation – When users type in the details, they are notified in real-time if any of them is taken or not valid. This makes the registration process faster and smoother.

Minimum Number of Fields – You can have a 1 field only form (using the Premium version) or 2 fields only form (using the Basic/ Pro versions). The less fields your visitors need to fill-in, the better your registration rates will be.

Ability to Tweak the CSS – You can fully customize the look and feel of the form: from adjusting the number of fields displayed, adding a text before and after and tweaking the CSS.

Easily Add or Remove Fields According to Your Needs – You can easily create any variation of form you want by dragging and dropping the registration form widget into the sidebar and checking the relevant options according to your needs.

Improved CSS class for all for elements – Allows you more flexibility in designing your registration form.

Email Login – Customer can now login using their email address

Fully supports Wishlist Member 2.7 and 2.8

Complete Activation Process Summary in 5 Steps

Follow the steps below to have Wishlist Auto Registration activated and fully function on your membership site. Detailed information about each step will be given further down this manual:

Step #1: Plugin Download

Download Wishlist Auto Registration Core plugin zip file from the Purchase Receipt you received to your email.

Step #2: Plugin Installation & Activation

Install the plugin just like any other WordPress plugin from the Plugins menu > Add New.

Step #3: License Activation

Activate the plugin's license using the license key you received to your email.

Step #4: Adding the Registration Form

After activating the plugin you need to add the registration form to your chosen location on the site.

You can add the registration form in any sidebar widget and / or in any post or page you like (premium version only).

Step #5: Testing the Registration Process

After you've added the registration form to your chosen location you need to check that the registration is working.

Step #1: Plugin Download

Download Wishlist Auto Registration Core plugin zip file from the Purchase Receipt you received to your email as seen in the screenshot below:

The screenshot shows an email receipt from Happy Plugins Store. At the top left is the logo, which consists of a lightbulb icon with a smiling face inside, followed by the text 'HAPPY PLUGINS' in a bold, sans-serif font and 'THE STORE' in a smaller font below it. The email body starts with a greeting 'Hello Motti,' followed by a thank you message. It then lists the purchased items, which include a 'Wishlist Registration Widget (Premium Version)'. Next to this item is a large red arrow pointing to the right. Below the item name are two links: one for the widget file and one for the manual. The receipt also includes a section for license keys, which is currently redacted with a grey bar. A section titled 'Invoice Information' provides details such as the invoice date, invoice number, purchase number, payment method, and total price. The email concludes with a sign-off and a note about redownloading files after 72 hours.

 **HAPPY PLUGINS**
THE STORE

Hello Motti,

Thank you for purchasing with Happy Plugins Store!

The items you purchased are listed below, along with all file download links. These download links expire in 72 hours, please download your files right away!

Products

- **Wishlist Registration Widget (Premium Version) – Single Website (Personal)**

Your license keys (if any):
Wishlist Registration Widget (Premium Version):
[REDACTED]

Invoice Information

Invoice Date: 08/09/2014
Invoice #: b7e4a22b31718cef62b8d0f51ee99de2
Purchase #: 5927
Payment Method: manual_purchases
Total price: \$0.00

Best regards,
The team at HappyPlugins

If you purchased without registering an account and wish to redownload your purchases after 72 hours, please go to [HappyPlugins](#) and create an account in order to gain access to your download links.

Step #2: Plugin Installation & Activation

Wishlist Registration Widget can be installed easily, just like any other WordPress plugin.

You can install it 2 ways:

1. Upload the folder found inside the zip file to your plugins' folder in your WordPress installation
2. Go to the plugins menu, click the "Add New" and choose the zip file you have downloaded

Step #3: License Activation

After you have installed and activated Wishlist Registration Widget, you will find the plugin's activation setting inside the WordPress menu under: WL Extensions > Wishlist Registration Widget.

You can easily activate the plugin's license using the license key you received to your email.

See this screenshot:

Wishlist Registration Widget - Premium - Activate License

Fill in the license key for Wishlist Registration Widget (Premium Version).
(You can find the license key inside your account or in the email you got when you purchased Wishlist Registration Widget (Premium Version))

License Key  Enter your license key

Activate License

Current License Status **Not Active**

Having License Problems?

This can be caused due to the following scenarios:

1. The license key you have entered is wrong – Copy the license key from your account in Happy Plugins Store
2. You have reached your license activation capacity – Please purchase more licenses

You can always buy more licenses for this product at: [Wishlist Registration Widget \(Premium Version\)](#)

This plugin is developed by HappyPlugins if you don't own a license go to [Happy Plugins](#) store and buy a license key for this product.

Finding Your License Key

You have 3 options to finding your licenses keys:

1. Go to My Account > Purchases and click on the key icon:

Purchases		Profile		
ID	Date	Amount	Details	License
#197	December 26, 2013	\$0.00	View Details and Downloads	ClickBank Cancel Notifications for Wishlist Member 
#140	December 23, 2013	\$15.00	View Details and Downloads	Clickbank Redirection 

[Next](#) 

2. When you finish the purchase process:

Purchase Confirmation

Thank you for your purchase!

Payment:	#197
Date:	December 26, 2013
Payment Status:	Complete
Subtotal	\$0.00
Total Price:	\$0.00
Payment Method:	Free Purchase
License Keys:	
ClickBank Cancel Notifications for Wishlist Member	

Step #4: Adding the Registration Form

After activating the plugin you need to add the registration form to your chosen location on the site.

You can add the registration form in any sidebar widget and / or in any post or page you like (premium version only).

Adding the Registration Form to the Sidebar

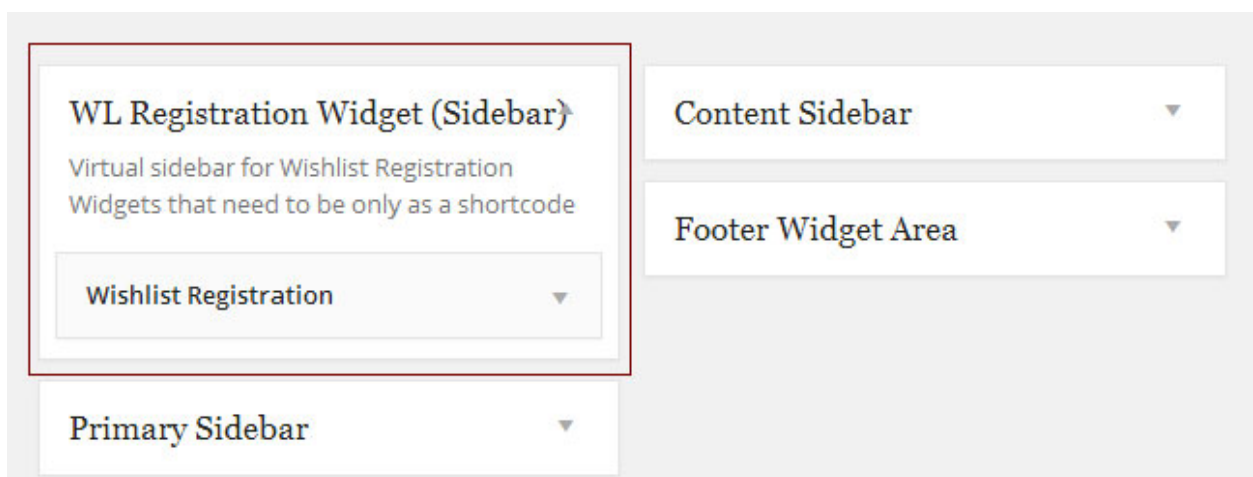

1. In order to add the registration form to the sidebar go to the WordPress menu > Appearance" > "Widgets".
2. Find the "Wishlist Registration" widget and add it to your chosen sidebar.
3. Determine the widget's settings and save.

Adding the Registration Form to Posts & Pages (Premium Version Only)

1. In order to add the registration form inside posts and pages go to the WordPress menu > Appearance" > "Widgets".
2. Find the "Wishlist Registration" widget and add it to the virtual sidebar we created called "WL Registration Widget (Sidebar)".

This is a virtual widget and will not display the registration form in the site's sidebar. Its only purpose is to have the ability to add the registration form inside posts and pages.

See screenshot below:

3. Determine the widget's settings and save.
4. After saving the widget's settings the shortcode will be generated. Copy-paste this shortcode into any post or page you like.

Wishlist Registration Widget - Versions Comparison

Wishlist Registration Widget has 3 versions - Basic, Pro and Premium, so the relevant fields will be displayed in the widget according to the version you purchased.

Here is a comparison table of the versions:

Feature / Version	Basic	Pro	Premium
Mailing List Automatic Registration	+	+	+
Automatic Login After Registration	+	+	+
Real-time Validation	+	+	+
Translation Support	+	+	+
Sidebar Widget	+	+	+
Redirection Page Setup	+	+	+
Name Fields	-	+	+
Password Field	-	+	+
Password Verification	-	+	+
Auto-Generated Username (sent by mail)	-	-	+
Captcha Field	-	-	+
Ability to add the registration form in posts & pages	-	-	+
No. of Fixed Fields	2	2	1
Fixed Fields (Can't be removed)	Username Email	Username Email	Email
Available Fields in Total	Username Email	Username Email First name Last name Password	Username Email First name Last name Password Captcha

The Registration Form Fields

Here is an explanation about the possible form fields in Wishlist Registration Widget according to the version you choose.

Wishlist Registration Widget includes only one setting screen and it's very straight forward to use.

All the settings are defined inside the widget options screen.

Inside the widget you will be able to define how it will function:

Title and Text - Define the title of the widget and a specific text that will appear above and below the registration form

Registration Level - Choose the level your visitors will be registered to. Wishlist Registration Widget supports free memberships only. For paid membership levels we recommend using [Wishlist Auto Registration plugin](#) to automate the registration process.

The After Registration Page - Define a different page your visitors will be redirected to after the registration process or use the default one defined inside Wishlist Member plugin.

Require Email Confirmation - Check if you want the user to confirm his email address. The user will have access to the members' area, but he will have access to the protected content only after he confirms his email address.

Require Admin Approval - Check if you want to approve your members manually.

Name Fields - You can choose to enable or disable the First Name and Last Name fields.

Password Fields - You can choose to enable or disable the Password fields. If you disable the password, it will be automatically generated and sent to their email.

Display Math Captcha Protection - You can choose whether or not to use Captcha to prevent spam.

Auto Generate Username Field - If you choose this option then the username field will not be displayed in the registration form and the username will be automatically generated and sent to your members' email.

Display Widget to Logged Users - Define weather the widget will be displayed to logged user or not.

Automatic Log In Option - Define whether or not your visitors will be automatically logged in after the registration process or not.

Step #5: Testing the Registration Process

After you've added the registration form to your chosen location you need to check that the registration is working.

Don't see the registration form?

If you don't see the registration form in the location you chose it is probably because you haven't checked the box in the Widget – "Display widget to logged users".

The registration process is not working?

If you have encountered a problem in the registration process, please see our [Contact Information section](#) for more instructions.

FAQS

Can I use Wishlist Registration Widget for paid membership?

No, you can use Wishlist Registration Widget to register members to a free membership to deliver them with high quality content and convert them into paying members in the future. For paid membership levels we recommend using [Wishlist Auto Registration plugin](#) to automate the registration process.

How can Wishlist Registration Widget help increase my revenues?

Wishlist Registration Widget's registration form is extremely converting due to its very customizable abilities. You create as many different forms as you like and split test them to see what best works for your audience. You can split test everything, from the number of fields, text, title, colors and more.

Can I add the registration form inside posts and pages?

Yes, in the Premium version this option is built-in and can be done using a simple shortcode as explained in [Step 4](#).

In the Basic and Pro versions you can do so by using a simple plugin called [Widgets on Pages](#). It's a very lite plugin that enables you to put any widget inside content.

What username is generated in the Premium version when checking the "auto-generated username"?

The auto-generated username is the prefix of the email, for example: If the email is josh80@yahoo.com then the user name is josh80

Can a user update their first and last name later on (if using the First and Last Name fields)?

Yes, if you choose the form to include first name and last name – then they are automatically added to the user profile and these details can be edited later on.

If these fields do not exist in the form, then the user can enter his profile within WordPress and fill-in these details manually.

How can free members help my revenues?

Free membership is an excellent way to increase revenues from the back-end. When visitors register to your free membership you have a great opportunity to engage them, build their trust and turn them into buying customers.

What is the difference between Wishlist Registration Widget and Wishlist's default registration form?

Wishlist Registration Widget has 3 unique features: Sidebar widget which makes the form visible from any location on the site, ability to have a one-field form and real-time validation that saves a decent amount of time filling-in the form.

Can Wishlist Registration Widget work with every membership plugin?

No, Wishlist Registration Widget is a Wishlist Member dedicated plugin.

Can I upgrade to another version later on?

Currently we don't have an upgrading program; however, you can purchase a different license when you will need it.

Can I use Shortcodes inside the widget?

Yes, we have recently improved the plugin to support shortcodes.

About HappyPlugins

[HappyPlugins](#) was established in 2010 and is dedicated to developing plugins and extension for the WordPress platform.

The majority of the plugins are developed as white labels according to our clients' specific requirements.

In late 2010 we opened a new branch under HappyPlugins brand for developing Wishlist Member dedicated plugins called Wishlist Member Developers.

Our team here at [Wishlist Member Developers](#) develops commercial and custom plugins for the Wishlist Member platform.

Expertise

Our expertise includes:

- In depth knowledge and understating in the web industry
- UXI design and improvement
- Experience in traffic and media buying for large companies
- Subscription-based marketing and retention
- Conversions and flow design optimization
